DENTAL SLEEP MINI-RESIDENCY 2021

Nierman
PRACTICE MANAGEMENT

DESCRIPTION

The Dental Sleep Medicine Mini Residency is the premier 4-session, 64 CE Credit program designed to give dental practices the knowledge and continued guidance to fully incorporate obstructive sleep apnea treatment into their practice.

Led by renowned speakers Dr. Mayoor Patel, DDS, MS, former AACP president Dr. Terry Bennett, DMD, and Rose Nierman, the mini residency includes a line-up of experienced practitioners and thought-leaders, as well as various physician specialists.

With an emphasis on hands-on learning, attendees gain the skills and confidence needed to be successful. In between each session, dentists are given homework and assignments to complete, including literature to read, and cases to prepare. Team members are also given tasks to work on, such as communication scripts and physician outreach goals.

By the end of session 4, the dental practice should be confidently treating obstructive sleep apnea patients, have physician referral networks in place, medical insurance reimbursement implemented, and be ready for various dental sleep medicine accreditation programs.
