Course Description

Establish your practice as the premier dental sleep medicine provider in your community.

Learn how to:

- ✓ Identify and screen your existing dental patients.
- ✓ Implement an efficient exam, workup and follow-up protocol with hands-on sessions.
- ✓ Establish relationships with physicians for a steady stream of referrals.
- ✓ Get paid by medical insurance for OSA treatment.

The key to successfully implementing sleep apnea treatment starts with getting the entire dental team trained. This course is designed to educate all team members in their specific roles for success.

Make your dental sleep medicine practice goals a reality this year. It all begins with the right education.
